Academic Projects

Rural E-health Web Application

In rural areas, a web-based application that uses HTML, CSS, JavaScprit, Java, and MySql allows users to enter patient symptoms and automatically assigns the doctor. Chat allows the user and the doctor to communicate about the patient's condition, and medications can be delivered via chat.

Converges 2k23 Website

Live Informative Website Developed in HTML, CSS, and JavaScript for College Converges 2k23 Event.

Portfolio using React Js

I created a responsive portfolio website using ReactJS.

Tour Management

A tour management project built using the MERN stack is a web application that facilitates the management and organization of tours and travel-related activities.
